PROFESSIONAL EXPERIENCE

Acheampomah Educational Complex — *Administrator*

July 2023 – December 2023.

I worked as the administrator and in charge of IT in this institution.

I gained leadership, organizational, communications, interactivity, and time-management skills just to list a few.

Within my time here, I helped solve the issue of school fees delay and non-payments. I also introduced extra-curricular activities.

Rising Star — *Teacher and Computer lab Technician*

January 2021- July 2023

I taught as an IT Teacher and lab Technician. I did installation of software and managed the database system for the school's terminal report.

I gained so many skills in using MS Access and dealing with computer networks and servers.

I was also the master in charge of the Computing, and drama clubs. I organize the clubs for series of activities every time there is a program, especially during graduations and internal activities.

Bright Sparks, Satellite — *Teacher and Secretary*

August 2018- January 2021

I taught as and IT, Science, and Creativity instructor at this institution.

I was hardworking and very dedicated to my work.

I was the Secretary for the Parent-Teacher Association.

I also held the responsibility of being the Senior House Master for the houses, master in charge of the cadet, and karate.

HARD SKILLS

Computer Languages

React   TailwindCSS

Python

Educational Skills

Technology Proficiency:

I use technology to make lessons engaging and relevant, motivating students to learn.

Data Analysis and Assessment:

I analyze student data to provide individualized support, setting goals and celebrating successes.

Classroom Management:

I maintain order and a positive atmosphere, helping students focus on their academic work.

Content Knowledge and Subject Expertise:

I provide in-depth explanations and guidance, instilling confidence, and a desire for excellence in my students.

Microsoft Office Applications

Excel   PowerPoint

Access   PowerApps

Accra Technical University, Ghana—

Bachelor of Technology in Computer Science

January 2020 - present

Accra Institute of Technology, Ghana —

Certificate in Computer Science

January 2019- September 2019

WEB PROJECTS

Nyametease Perfect Grace Foundation — *A Foundation Website*

This is a foundation website for a foundation that takes care of the poor and needy and provide support for students.

The target was to create a user-friendly UI where users can interact easily with the site and explore the activities the foundation undertakes.

It included a gallery and a donation page where visitors can explore the pictures and make donations through different provided means.
